

I was a friend of Brian Hill and conducted investigative work to help assist him in trying to prove his actual innocence to one count of possession of child pornography.

The Senator's office betrayed Brian and his friends. Senator Buck Newton's staff person felt more sympathetic and wanted to help assist Brian in resolving the issue of child porn download dates of when it was under law enforcement custody. The new Senator Shirley Randleman was appointed as Co_Chair of such committee and then her staff employee betrayed Brian without informing him. They wouldn't even inform Brian that committee wouldn't even question S.B.I Agent Rodney White. They inform his friends but not Brian himself. What cowards that that State committee people at Justice and Public Safety (JPS) joint oversight wouldn't even hold a S.B.I Agent accountable for downloading child porn to Brian's computer according to Agent White's own admissions to it downloading to July 28, 2013. I guess Brian will never be allowed to prove his own innocence. Not even allowed to have a independent computer forensic expert examine Brian's forfeited computer at the S.B.I crime laboratory.

Then Internal Affairs did nothing about the issue, thus allowing a innocent man to be on the horrid Virginia Sex Offender registry for fifteen years.

So I am blowing the whistle on these communications with permanent redaction on my identity for my safety. My life is at risk of death so I must remain anonymous and upload to secure places on the internet. The State doesn't want Brian off of that nasty registry. His politics has cost him his freedom and may never be allowed on the internet again. Brian wanted to be on the internet so badly but now he has to wait until his Probation sentence has been served, how lovely :(

never trust the state bureau of investigation again as they set people up with child pornography. How can they not be framing people with shoddy forensics and dirty operations

they will likely kill whomever they found to send these email communication exchanges I am leaking out. Or destroy Brian's computer..

Agenda question and attendee

11 messages

Thu, Jan 7, 2016 at 10:34 PM

Dear Patrick Limer,

I got a message regarding the "Joint Legislative Oversight Committee on Justice and Public Safety Meeting". I saw that the meeting is going to start at 1:00PM at 643 Legislative Office Building (LOB), January 14, 2016.

I got a question and this question may bring a Attendee also into relevance.

First of all on the issue of State Bureau of Investigation (SBI) Special Agent Rodney V. White, on possible evidence tampering and mishandling of evidence. Will that or any issues regarding the SBI be one of the Agenda issues of the Committee? Has the 12 page Petition and Extension to the Petition + evidence(incl. Affidavits) and Report (envelope addressed to former Co-Chair Senator E. S. (Buck) Newton) been adopted by the Committee to bring up as an issue regarding corruption at the SBI?

Brian D. Hill faxed a 12 Page Petition and Innocence Affidavit to try to build a case of proving SBI misconduct and conspiracy to tamper with evidence or mishandle the evidence to try to wrongfully convict Brian D. Hill by forcing a plea bargain, then make it a federal indictment so that Brian the Autistic man couldn't receive assistance from the Innocence Inquiry Commission. Because he falsely plead guilty no court wants to help him and nobody is giving him any authority to investigate the corruption at the SBI. He has Autism so he had falsely confessed. That can be proven and Brian is willing to testify under Oath to that. He tried Internal Affairs but they threw out his complaint and refused to hold SBI Agent White accountable for conspiracy and misconduct.

I don't know the envelope certified tracking number but I did heard that it was received by a Ratha Turner on June 4, 2016. That envelope also was sent to Senator Buck Newton to suggest that it also be looked at by the Committee Co-Chairs. Brian the Petitioner that had sent evidence to the Committee had no idea that it changed from Sen. Newton to Sen. Shirley B. Randleman. The evidence includes two authentic Affidavits with original signatures(no photocopy this time) regarding SBI Agent Rodney V. White may have deliberately withheld evidence from a federal court case white Agent White personally wanted a federal indictment so Brian couldn't receive any kind of help to prove his Innocence, evidence that would have given the Defendant a non-guilty verdict in a computer crimes case. In addition to that after Agent White wanted a federal indictment, he posed as a Federal Marshal (a federal officer) to talk to Brian then he told Brian that he did receive emails with the exculpatory evidence. Those emails were never introduced as evidence in the very federal case that Agent White started. Nobody would believe the Defendant and he had no defense so he would be found guilty on fraudulent evidence being used against him. The SBI needs to be investigated again as they will frame more and more innocent people to be thrown in prisons. The envelope also had Carbon Copy requests for Rep. James L. Boles Jr. and Rep. Pat B. Hurley. I will let Brian know that the Co-Chair has changed. It is important that the Co-Chairs of the Committee read the certified mailing with evidence pertinent to the Justice and Public Safety Committee. Nobody else will hold the SBI accountable at this point. The FBI is pretty much refusing to investigate the corruption at the SBI involving Agent White. Nobody has yet to hold him accountable for his misconduct. That is why Brian is asking the Oversight Committee to inquire on why Agent White would download child porn to Brian's computer and ignore exculpatory evidence, and even after he was made aware that Brian was sending pro se letters(even to the SBI) because of ineffective counsel?

If the Committee has decided to bring up the issue about Agent Rodney V. White of the SBI Agency, will you invite/subpoena Brian D. Hill to attend or can he and three members of his immediate family be able to attend the hearing?

I have heard that his Probation Officer has agreed to let Brian come down to testify before the Committee and bring up important evidence to hold Agent White accountable for using the Justice System as a tool to punish and set up

Brian for a crime that he didn't even commit for his past political work.

Thank You!

Pat **dleman)** <Randlemanla@ncleg.net> Fri, Jan 8, 2016 at 9:16 AM
To:

Hi ,

The agenda is currently being prepared by the committee's research staff. I do not yet know the items that the chairs have decided to hear, but the agenda should be released prior to the meeting date. Members of the public are welcome at any meetings of the committee and can speak with chairs regarding testimony before the committee. If you would like, I can forward your questions to our research staff to see if this issue has been brought up for consideration, but I cannot answer your question at this time.

Let me know how else I can help,

Patrick Limer

Randleman)" <Randlemanla@ncleg.net> Wed, Jan 13, 2016 at 12:20 AM

Yes please forward my question to the Research Staff. Also please forward this email to the Research Staff and also print to the Senator to read this. I am only mirroring what information that Brian has told his friends of his. You can ask Brian for clarification and Statements under Oath or Affirmation as to it's truthfulness. Brian is willing to completely cooperate with any investigators' involved.

Certified Mail Tracking number for a envelope of evidence addressed to the Oversight Committee on Justice and

Public Safety is: 7015 1520 0000 6905 4379

It said on the envelope the following:

ATTN: Senator E. S. (Buck) Newton
NC Senate - Oversight Committee
300 North Salisbury St., Room 621
Raleigh, NC 27603-5925
CC: Rep. Pat B. Hurley and Rep. James L. Boles Jr.

Brian has informed me of the certified mail receipt number for the envelope addressed to Senator Buck Newton's Office and CC'ed to Rep. Pat B. Hurley and Rep. James L. Boles Junior. This envelope is important as it contains two sworn Affidavits regarding State Bureau of Investigation Special Agent Rodney V. White. He may have broken state law and/or procedure then recommended that it be a federal criminal case to prevent the state from doing anything about it to frame up Brian David Hill as a Sex Offender, then deny his Attorney any right to get a independent forensic examination. I believe all of this may have been done deliberately to rob Mr. Hill of his Constitutional rights to Due Process and Confrontational Clause to which he has a absolute right to confront the witnesses against him in a court of law. He was denied all rights altogether and had no right to confront SBI Agent Rodney V. White. Rodney White bullied him knowing he had Autism and he has told SBI Agent White over and over again that he is not guilty of child porn. He has forced out of a mental inpatient unit at a Hospital then forced onto Suicide Watch then forced into a Federal Court then given ineffective Counsel with no right to change his Court Appointed Attorney until after he plead guilty. Agent White has repeatedly ignored his inquiries and even his own Pro Bono Attorney's inquiries.

Please forward to the Research Staff and Please also forward to the Senator and Co-Chairs' to read:

The two sworn Affidavits are important. First sworn Affidavit is regarding Agent White admitting to receiving emails sent from Brian D. Hill to N.C. Assistant Attorney General Joy Strickland. Also **SBI Agent White appeared to have posed as a U.S. Marshal when transporting Brian to the Federal Courthouse** then he disappeared from sight then ignored further communication with the suspect Brian even though Agent White's forensic report is key evidence in Brian's federal case. **Agent White is a key witness for the Government and got away with various statements he has made that contradict the Grand Jury's finding** that Brian knowingly possessed child porn with usage of a computer in interstate and foreign commerce. **Agent White said that child porn downloaded up to July 28, 2013, exactly eleven months after his computer was seized by the Mayodan Police Department, pursuant to the Search Warrant filed with the Rockingham County Courthouse Clerk. He has knowingly allowed child porn to download to Brian's Laptop after it was seized by Mayodan Police, which means child porn has been officially planted on Brian's Laptop computer to frame him with child porn possession and to increase the numbers of child porn images and videos to make it more likely that a Jury would convict him** as it would be harder to argue legal Defense of frame-up without usage of a computer forensic expert for his defense. Brian finally got somebody he knows to cough up \$3,000 for the assistance of a independent computer forensic expert for his Pro Bono legal Counsel Cynthia E. Everson, Attorney At Law. That was last year in October, 2015. The staff at the SBI still cannot or will not locate the Toshiba Laptop computer in question that Agent White claimed that child porn was downloaded on, for a independent computer forensic expert to test the Prosecution's and Agent White's theory that Brian was downloading child porn to his own Laptop even after it was seized by Mayodan. If child porn was downloaded to the Suspect's computer after it was seized then somebody from Law Enforcement was downloading child porn to Brian's computer along with a computer virus or Trojan Horse to try to set him up. His Defense Lawyer Ms. Everson would have been able to prove frame up with the assistance of a forensic expert. That ain't happening with the corruption at the SBI.

It is pertinent and critical that the Committee hold Agent White accountable and make a finding on whether his SBI Case file forensic report should be disqualified and whether the State should kindly ask the U.S; Attorney to withdraw Agent White's SBI case file as evidence altogether since he is using the Federal Court as a tool to get away with framing Brian David Hill with child porn.

Brian is ready to make more sworn testimony for the Committee to hold Agent White accountable for posing as a U.S. Marshal and going to the L. Richardson Preyer Federal Building. They framed him with child porn so that they would put him under Probation restrictions such as not being allowed to use the internet without permission from his Probation Officer. They did this to keep Brian from using the internet because he ran a political website blog since October, 2009, on uswgo.com domain. You can research New York Times article

on USWGO hobby Blog person Brian Hill. He was featured in a NYTimes article regarding a Righthaven federal lawsuit. Brian also spoke at the **Mayodan Town Council proceedings during the Public Comment Periods (Ask Clerk Melissa K. Hopper for the records of March 2012, April 2012, May 2012, June 2012, and July 2012).** All of these records can be verified and certified to be sent to Committee and Research Staff, Brian was denied even the right to ask the Innocence Inquiry Commission for help in proving his Innocence. Brian a Innocent man and a sexual virgin is on the Sex Offender Registry right now for a crime that he did not commit. **He has written countless letters to the FBI people, and lying to the FBI is a criminal offense. He has stated his Innocence in a Declaration to the FBI**(two criminal offenses in the event of lying) and has written to the FBI about his Innocence. **They will not help him because all evidence was collected by the State of North Carolina.** The Committee has the entire authority and the right to fully investigate and hold people accountable in the State agency for this matter. Only the State can do something about the crooked and corrupt SBI Agent Rodney V. White in this matter.

Brian is at risk of multiple perjury charges including the risk of perjury charges by Attorney Susan Basko from California for asserting Brian's Innocence under Oath due to child porn frame ups of Brian's political associates, if Agent White is not fully investigated for his misconduct and Brian being framed with child porn. He has tried the Innocence Project but they have repeatedly refused to help him. He has tried the North Carolina Center on Actual Innocence but they have also refused to help him investigate Agent White. The only people that can hold Agent white accountable now is the Oversight Committee and Internal Affairs. IA has refused to hold Agent white accountable. The Media has refused to cover any of this until there is solid evidence of Agent White's misconduct. Brian a Innocent man has faxed his Affidavit of Innocence to enough people to where he has to be found Not Guilty (Acquittal) by showing evidence that can prove his Innocence or face multiple federal and state perjury charges for claiming he was innocent when nobody will do anything to help him prove his Innocence so people just assume that he is guilty while he is making repeated statements of Innocence under Oath since 2013. He was even sending a non-notarized Affidavit to Joy Strickland which he signed stating that he didn't download child porn but that he suspected that it was a computer virus or Trojan horse.

Your state owes it to Brian Hill to at least ask Agent White some questions under Oath. Your Committee has the power to inquire on his misconduct and ask him questions under Oath. He can plead the fifth but then he would waive to explain why child porn would download under his custody and Mayodan Police custody. He may attempt to claim that he was wrong about the download dates but then why doesn't he allow Ms. Everson the Attorney to have a independent computer expert examine his computer to determine whether Brian downloaded child porn or somebody else (computer virus, police detectives', and/or computer hackers) downloaded child porn to his computer. He has a RIGHT to find out why child porn would download to his computer after it was seized by the Police. He has a RIGHT to prove his Innocence under Writ of Habeas Corpus. North Carolina is NOT under the Law of War. Child Porn charges is NOT under the Law of War. Brian is not a suspect to which he is under the Law of War. Brian has a RIGHT to challenge his Sex Offender conviction. Brian has a right to find out the truth. Your Committee can INQUIRE on Agent White to begin to bring out the truth if Agent White has any truth left in him. It is your Committee's right to INQUIRE and investigate why Brian was denied Due Process by Agent White posing as a U.S. Marshal to hear Brian whine about his Innocence then be denied all right to confront the Government's witnesses using ineffective assistance of Counsel. Brian was even denied Law Library access in North Carolina County Jails before his false guilty plea. He had no idea how to proceed Pro Se even though he had a right to proceed Pro Se. Brian falsely please guilty under Oath (perjury) due to threats against him and his family. He has demonstrated that his confession was false and that he can be threatened into making legal consequences against him. He has Autism for Christ's sake. No offense to God and Jesus Christ.

Maybe God and Jesus Christ will reveal the deceptive worm that SBI Agent White truly is for helping to frame Brian David Hill with child porn. The World shall known decades into the future that Brian David Hill was framed with child porn by the SBI as the threatening emails' Brian had received in 2013 had shown.

The archives of his criminal case regarding the frame up of Brian Hill can be found publicly at archive.org. The Research Staff can investigate all of that and ask why Brian would claim his Innocence under penalty of perjury over and over again. You've got to ask why Brian would constantly declare his Innocence. If any of you have any morals, you've got to hold a Committee hearing over Special Agent Rodney V. White. You owe it to God!!! All glory goes to God and the seekers of truth. Jesus Christ said that Ye shall know the truth cause the truth will make us free. The truth will set Brian free from the Sex Offender Registry and his wrongful Probation, to which he shall rightfully be removed from that horrid registry. Brian should be allowed back on the internet to where he can enjoy watching his Japanese anime, take his beautiful photos of lighthouses and butterflies, to where he can pay for another few months on Match.com to find his soul mate, and can hang out with his friends. He should not be barred from the internet just

because somebody in the SBI framed him with child porn. God have mercy on his soul! God have mercy on all of your souls!

Dear James Boles,

You should review over this message before the Oversight Committee hearing on Justice and Public Safety. I am sure Tommie Puryear would also vouch for a Committee investigation on Agent Rodney V. White of the SBI.

Randleman)" <Randlemanla@ncleg.net>

Brian has a Pro bono attorney but the SBI are playing dirty games with her(attorney). Cynthia has asked for Brian's Laptop computer, since October 2015, to be examined by a Independent computer forensic expert specialist to determine if Brian is even guilty of the child porn charge but they will not give access nor have they even have found such computer. Brian has tried the Innocence Inquiry Commission but they won't help him because SBI Agent White made this a Federal case then lied to Federal Marshals that the State didn't initiate the federal indictment.

Brian's only hope to gather enough evidence to prove his Innocence is a **Inquiry hearing** where SBI Agent White **has to testify under Oath**. It would look suspicious if Agent White pleads the fifth to the accusations of the download dates of the files downloading on eMule. I've heard that Brian has already faxed the N.C. Attorney General's Office recanting his confession on August 28, 2012. He has stated convincing reasons why his confession was false and gave a little cross examination between Agent White's report and his statements to police. His confession statements don't match the report, and are contradictory. His guilty plea is also contradictory to his Innocence statements before his guilty plea and even after. He told the police that he didn't download child porn, just pirated software and music. They grilled him knowing that he had Autism by the Police Chief threatening to hold his Mother responsible, they told him that they found stuff on his computer and that more child porn will be found if he didn't tell them that he did it. Almost like they threatened to "find more" aka maybe plant more. The fact the SBI may have "lost" his Toshiba Laptop computer means they don't want anybody to examine his Laptop computer, the key evidence to convince a Jury of his guilt or innocence. If child porn was downloading to his Laptop after it was seized then that means the police were downloading child porn to his computer, and hiding the evidence by forcing a guilty plea then destroying/losing the evidence. Now the SBI may have no evidence to even press a charge against Brian but they can always manufacture more evidence while he sits in Jail while his health deteriorates while waiting for a Jury Trial. The safest way to ensure Justice is to question Rodney White under Oath where subpoena power holds. He is likely going to refuse to answer to any questions or if he does answer he will likely be deceptive or lie to protect the former Rockingham County prosecutor, which includes Melanie Bridge the Detective Robert Bridge's sister.

Ever since he started to contact you guys, his mother has been having one car problem after another. I suspect that his car may be tampered with. So far God has protected Brian and his Mother. The FBI has been ignoring Brian and refuses to investigate anything. Brian doesn't know what to do.

Brian cannot get subpoena power unless he files a Motion to take it back to a Jury Trial but then he would be thrown back in Jail. He has Type 1 brittle diabetes and was diagnosed by Dr. Steven South in Greensboro, N.C.. Forsyth, Orange, and Guilford County Jails have taken terrible care of Brian's health. He had to take a plea or he would have lost his SSI Disability and he would have suffered enough health deterioration to end up in a Hospital repeatedly. His weight dropped down to 140lbs and he may have some foot damage such as a little loss of feeling in is nerve after he was jailed in North Carolina no thanks to SBI Agent White. The Doctor ordered that he receive diabetic shoes.

Brian wants to ask Agent White questions but Agent White has been ignoring his letters. He has nowhere else to turn to. He has been accepted by the Wake Forest Innocence and Justice Clinic but he does not have any legal power to hold inquiries.

The SBI has pulled all of the games to keep the truth from coming out. The SBI does not want anybody to know what was on Brian's computer. If Brian was some guilty child porn collector as the police are claiming, then why are they

keeping everything secret and why are they deteriorating his health to force him to plead guilty on Time-served, then Brian is denied Independent computer forensic examination.

I've heard you will hold a hearing for the Innocence Commission. I think their policies need to change on Federal cases. Any Federal cases that are based entirely on State and local police investigations as apart of a state criminal matter pursuant to a state search warrant should be allowed by the Innocence Inquiry Commission, then they can investigate and then recommend to the Federal Court and U.S. Attorney that the Defendant be given a New Trial or hold a hearing for a Judgment of Acquittal. There needs to be protections for North Carolina citizens that were under corrupt SBI investigations and those SBI Agents recommend federal indictments to ignore all state laws and protections offered in state cases. There needs to be some kind of protection otherwise more people will be framed with child porn in North Carolina without any resources to get a fair and Just outcome. This is wrong and is a obstruction of due process.

Rodney White and Reidsville PD Detective Robert Bridge has not followed the duties of the ICAC task force, and that duty is to afford every suspect the right to Due Process, not deny medical attention to force a guilty plea. Brian received no due process from this child porn investigation and had no right to object to anything until after he plead guilty. He is now risking his life with his Innocence Affidavit. By faxing it to the State Govt, he is now at risk of perjury charges in two states if he does not get any evidence at all. He has the right to know why he was framed with child porn and if he was framed. He has got to get a investigation into those dates and even into why they don't want a computer forensic examination. Ask his Attorney on why the SBI will not turn over his computer to the state Laboratory for examination by a Independent computer expert.

Please do something otherwise Brian will continue suffering injustice for his Autism. Brian fought in Rockingham County in 2012 to try to end torture of American citizens under the NDAA, and being framed with child porn was his reward.

y.Randleman@ncleg.net

Dear Patrick Limer,

Let me know if you have received my last email.

Also please inform Brian as to when Sen. Shirley Randleman was able to receive a copy of the papers in the envelope addressed to former Co-Chair Senator Buck Newton. It is very important that the two sworn Affidavits be reviewed by the Co-Chairs and the Research Division. **The other Affidavit certifies that the email records from admin@uswgo.com are authentic records from the suspect/Defendant when they were emailed to NC DOJ J. Joy Strickland** requesting that they be forwarded to SBI Agent Rodney White. Agent White confirmed to receiving those emails according to the testimony of Brian Hill. Paytel Phone recordings at Guilford Co. Jail also have a copy of records from either December 23, 24, or even 25, 2013 on the Jail's PayTel phone system. All PayTel calls are recorded so you have your proof that Brian had called his family thinking that Agent White received those emails and was going to help him prove his Innocence by investigating into the truth. Agent White let him down. Those records prove prior warning to SBI Agent White that Brian David Hill was innocent of the child porn accusations when he was considered a suspect by the Mayodan Police Department.

Brian is getting ready to send inquiry letters to everybody ever involved in the State's child porn case. He said to me that he is sick and tired of being framed with child porn that may not actually exist on his seized computer.

If you ever read SBI Agent White's report, there was no confirmed child porn files only the "files of interest." Also no victims in the supposed child porn files were ever identified. The U.S. Probation Office conducted a criminal investigation for his Pre-sentencing and admitted that no victims were ever identified in the files found on his computer. Maybe no child porn exists at all just the words of a crooked SBI Agent? **No victims found, no confirmed child porn, yet Brian was coerced and threatened to falsely plead guilty.** Now the police will destroy records his false confession audio and then destroy/dispose his computer so that Brian can never prove his Innocence after falsely pleading guilty. **Brian and others will be false Sex Offenders just as the threatening tormail.org emails have said, no thanks to SBI Agent Rodney White. Brian was threatened to being set up with child porn by a unknown assailant claiming to know some people in the SBI (reported to J. Joy Strickland back in 2013 with all email header information, filed on Federal Docket after he plead guilty). Brian was threatened that his medical caretaker will be arrested for child porn charges if he did not tell the police detective that he did the crime.** They also threatened to "find more" child porn on his computer if he did not confess, almost as if they were threatening to plant child porn.

The detectives told him that they have the power to add innocent people's IP Addressees to the child porn database. This is in the confession audio that is retained by the Mayodan Police Department. They said that **"we can add your grandmother's IP Address to the server."** Brian can swear this in an Affidavit and file a subpoena to obtain the confession audio then he can get more witnesses to testify to the fact of the Detectives saying this in the confession audio. He had falsely confessed and was threatened two different times to confess.

Brian is angry that he was framed with child porn. This ain't right and he has thought about getting the Administrative Law Court to subpoena the SBI but he has to have a contested case to file a Petition with them against the SBI. Brian doesn't know what court he should file a Petition ordering that the police turn over the confession audio to be examined by a forensic expert. Brian was threatened to plead guilty and then more threatening emails by a unknown assailant from tormail.org were directed at Attorney Susan Basko that they will come to her home and plant child porn in her computer after they break into her home. These are the same people threatening Brian David Hill to being framed with child porn. They sent child porn using tormail.org to his friends Luke Rudkowski, Stewart Rhodes, Dan Johnson, Madison Ruppert, Jeffrey Lewis (apparently Brian almost was set up twice when child porn was sent to admin@uswgo.com under a fake Jeff Lewis from New Bern, ask forensic IT Tech expert Garrett that works for Dan Johnson), and others. They have threatened to have Brian raped in federal or state prison. They have even threatened to kill Brian. Those threats were reported to the FBI. Now that Brian continues pursuing a case, his mother's car has had a continued problems as if there was sabotage.

If the State of North Carolina won't hold SBI Agent White accountable, this injustice needs to be reported to Wikileaks and even the New York Times. A public debacle against the State of North Carolina for allowing Brian to being framed with child porn by some maniac using Tormail.org and other anonymous services with access to extensive child porn files. **SBI Agent White knew that Brian was framed with child porn by reporting those dates. He has some explaining to do.** Brian is saving every legally recorded telephone call, every letter sent and received, every fax sent and received, and is extending his legal filings over triple the space to file more evidence. His evidence will continue to grow until he has enough for the CIA, maybe he should join the FBI. He is angry that he has been on the Sex Offender Registry for over a year for a crime that he did not commit. He was bullied and tortured by medical neglect in ALL North Carolina controlled Jails to falsely plead guilty. His public defender refused to do anything to help him prove his Innocence then mocked Brian and said that Brian did commit the crime when he had evidence showing signs of his Innocence. This is a fraudulent conviction and the entire court system is a fraud until Brian's wrongful conviction and botched child porn investigation is fixed in a Constitutional manner. Brian is NOT guilty and needs to be acquitted. Maybe I need to start boycotts and organize protests all over the country if that is what it takes to expose the child porn frame up of Brian David Hill. Maybe I should contact John Walsh and get him to reverse the Sex Offender laws since the State may be framing people with child porn, and getting away with it.

Contact former State Representative Glen Bradley that knows that Brian David Hill was being sent threatening emails regarding the nature of child porn frame ups. Then Jeffrey Lewis of the Patriot Coalition in New Bern also is aware that Brian was framed with child porn. He had reasonable doubts regarding the Search Warrant by Detectives' Christopher Todd Brim and Detective Robert Bridge. There is a WAR going on between the corrupt Mayodan Police and it's Town Council Attorney versus Brian David Hill. They have the power and resources to ruin his innocent life forever. Brian is dirt poor living off of SSI and loves the Constitution. Now he wishes that he had renounced his

citizenship and reclaimed his birth certificate as a sovereign outside of corrupt U.S. law. Brian is angry and wants to fight back against the bullies. His due process was shattered and his foot was damaged by your good-for-nothing County Jails. Maybe he should sue Forsyth County and even Guilford County for medically damaging his foot to where he needs special shoes for his diabetic feet. Maybe Brian needs to inform the United Nations about this outrage. Brian will never let this go until the real culprits destroy Brian as they had threatened to do to him if he proves his Innocence. Brian doesn't want to be a Sex Offender because he committed no sex offense. He should be acquitted as he is a good person that committed no crime. If the State refuses to hold him accountable then due process has been shattered just like with Rubin (Hurricane) Carter. Rubin Carter's due process and other rights were constitutionally violated that the Judge had no choice but to end his sentence. The Judge might have to do the same with Brian, acquit him on Constitutional violations all of the way to which it had prejudiced the Defendant and his right to prove Innocence.

Pat **dleman)** <Randlemanla@ncleg.net> Mon, Jan 25, 2016 at 11:57 AM
To:

Based on the documents this office has received from you and Mr. Hill, our staff attorneys do not believe this is a matter for the JPS Oversight Committee. The Committee does not get involved in individual cases. Allegations of misconduct by SBI agents are investigated by the SBI's Special Investigations Unit. Mr. Hill's case was prosecuted in federal court. The General Assembly has no authority over the U.S. Attorney. If Mr. Hill feels that his case was mishandled, he should work with a private attorney to resolve those issues through the courts.

Thank you,

Patrick Limer

To: "Patrick Limer (Sen. Shirley B. Randleman)" <Randlemanla@ncleg.net>

Brian's only option to even review over the evidence is taking it back to a Trial which means he has to go back to your State's lousy Jails. They damaged Brian's diabetic feet by causing constant high blood sugars and Brian will have to sue your State now since you're so in-compassionate about the Jails in your State taking poor care of people with brittle diabetes. It may be Federal but your County Jails take horrible care of diabetic patients and your SBI agency is no longer a credible law enforcement agency. I will now focus on completely discrediting the SBI dis-credible agency. Brian's health was deteriorating while Brian was in Jail and he has records proving such. He will have no choice but to sue North Carolina for damaging his health before taking it back to a Trial. The Innocence Inquiry Commission should have investigated the SBI but you don't care about the violation of State laws nor do you care how many crimes are being committed by the SBI. I guess if Brian worked for the SBI then he can freely commit crimes against anybody just by making federal cases out of them. I guess Wikileaks may have to be informed about the SBI corruption. Your State wants to force Brian to register as a Sex Offender or die in Jail with ketoacidosis just because he wants to prove his Innocence. The SBI and Mayodan Police along with State Senator Phil Berger started this whole charade. I will inform Wake Forest Innocence and Justice Clinic about your response and they will hold people accountable. Heads will roll politically for what they have illegally done. Brian will send Affidavits and start filing whatever he can to put things on record for media reporters including Mandy Locke and explain what was wrongfully done.

Yes if you want to know why Brian was framed with child porn, it was the Bergers that started all of this. Phil Berger was the Town Attorney of Mayodan while his son was District Attorney presiding over Brian's criminal case. Brian intended to keep this quiet because he was afraid of being targeted but it is all over public record. Phil Berger politically motivated this entire criminal investigation. It is all on federal record that Berger Junior was the DA when Brian publicly called for the removal of the Senator. I have enough evidence to convince the media of the corruption in the SBI just like with Kirk Turner. Your SBI agency doesn't care how many innocent people that they convict. Brian will sue your State since it was your SBI Agency that has caused the damage of Brian's health and has wrongfully convicted a known innocent man. He was a former news reporter so what is to stop him from suing your State. He will sue for the denial of his due process then sue the State for conspiracy. Brian will gather as much evidence to sue for big.

Mayodan Police refuses to turn over the confession audio to his Attorney for proving Actual Innocence. SBI will not allow Brian's Laptop computer to be independently examined even though pressed by his Pro Bono lawyer. Your Government has aided and abetted Phil Berger and the child porn set up operation to protect the State Senator's perfect image. Brian only wanted his life back and your State has ruined his life. Brian will ask every family member of his to move out of the State and never buy anything in North Carolina. That is it. Your State doesn't deserve any more recognition. I am sorry for sounding cruel but your State and the local Mayodan Police have been cruel to Brian.

Go ahead and let Phil Berger and his associates target Brian and his family. Brian just wanted his life back and was going to give up politics. They want Brian on the Sex Offender Registry to keep track of every place that Brian is living. It is to keep Brian from using the Internet and to keep watch on him. Just so you know Brian doesn't like pursuing a legal battle like this. He only wants to be pardoned for his Innocence or acquitted but your State doesn't even want Brian getting out of this on any technicality. Brian will have to find a way to get a good Bond release plan then explain to the Jury why Phil Berger Jr. did this to him as the District Attorney of Rockingham County. He did it to protect his father. It makes me angry that there is yet another politically motivated child porn set up or any set up for that matter.

Brian agrees to move on with his life after acquittal. Brian just wants his life back. His life was taken away from him by Phil Berger, SBI Agent Rodney V. White, SBI Agent Gerald Thomas, SBI employee Cheryl King, and two police detectives both with connections personally to Phil Berger. Melanie Bridge was personally endorsed by Berger to be the next District Attorney and her brother Robert Bridge targeted Brian under the guise of fighting child porn. Berger is connected throughout the entire child pornography investigation, how convenient. Go ahead and ignore Brian, aid and abet Berger's crimes throughout the State but he will have to face God and Jesus Christ on Judgment day with his crimes. Someday his life will be reviewed via the book of life. Berger will not be going to heaven but hell for what he has done to Brian and others. God does not like what was done to Brian. Well I guess they did far worse to Jesus torturing him only because he spoke the truth. Brian spoke the truth on uswgo.com and was tortured in your State County Jails and mocked, demonized and lied about. Then of course they made him strip butt naked while the Jail guards videotaped him and made him show his butt while the guards giggled and videotaped him. They could even upload the prisoner abuse videos to porn sites and the State Govt won't care. It is as if Brian is meant to suffer for his political speech, like Brian was meant to be framed with child porn to protect the powerful and corrupt politicians.

Brian wanted to file an ethics complaint against Phil Berger Junior but his Attorney told him that would be a mistake and

his family warned him that he would be targeted. This is wrong all of the way with what they did to Brian. Brian is a innocent man and your State has done the worst thing it could ever do, make a innocent man into a Sex Offender and knowingly permitting these kinds of activities.

Go ahead and target Brian and his family for speaking out against the great Phil Berger and his son back in 2012. Brian only wanted his life back but is even being denied that too. Brian can't have a life can he????????

Brian has never had any good experiences working with the State of North Carolina. He will now ask his family members to move out of the State and take their tax dollars elsewhere. Let the horrible corrupt judicial State of North Carolina fall into political turmoil for it's crimes against it's people. Then they tried to harass and punish Attorney Mumma too for helping Innocent people. It's much better to add innocent people to the sex registry and DNA databases. It's all for the eugenics movement right? Add innocent people to DNA databases to persecute and frame more innocent people if they fall out of line. Your State is officially corrupt and Brian will declare the State as one of the most corrupt States he has ever known. Virginia cares more about him and doubts he is even a real Sex Offender but they are forced to follow the law by making him register. Even his Probation Officer doubts his own guilt. Your State is looking like a joke and I ain't joking. Your State has the credibility of big mega corporations. This makes me so mad that your State offers no protections at all. Your State doesn't care about the Innocent people.

Good day!!! I guess the media needs to get involved now. Brian thought the State could hold it's Agents' corrupt activities accountable. Now it looks like "oh yeah! so what if child porn was downloading while it was at the SBI?" I guess it is the new fad to download child porn to suspects computers. Maybe one day framing people with child porn becomes the new fad of the judiciary. The Government will lose it's appeal and the American people will likely revolt once the Government loses it's appeal of a illusion of justice that doesn't exist anymore.

Also forget about Brian testifying at any of your functions. Brian will testify at the United Nations instead or even at the Court. Human rights abuses also going on in North Carolina Jails. Major crimes being committed and abetted by the State.
